Diversity Statement

We acknowledge that the communities we serve require different strategies and care to meet their needs. The Y is made up of individuals working to support our communities. We work collaboratively to ensure that all Y members, and employees, no matter their ethnicity, age, gender, religious beliefs, sexual orientation, cultural background, social economic status, race, or ability have the opportunity to experience the Y. At the Y we promote and share the values of caring, honesty, respect, and responsibility.

Differences in basic human needs are recognized and addressed by YMCA staff and volunteers when designing programs and services. Racism, biases, disparities and inequalities are acknowledged and addressed by Y leaders in the same way as basic human needs like food, clothing and shelter. The YMCA is committed to advancing equity for everyone in the YMCA and the greater community. Our volunteers and staff work in concert to build relationships, understand needs, design programs and provide support that help ALL people to participate without barriers. We will accomplish this by being intentional, utilizing our resources, and time. We are determined that this work will be effective in igniting community change.

Child Protection Initiatives

At the Y, we believe that every child who walks through the YMCA doors is ours to protect. This is why we adhere to strict policies from our hiring procedures to member and guest regulation. We conduct nation-wide criminal and sexual offender background checks on all employees prior to allowing them to work in our facility. We also require proper identification from all visitors to our facilities, in order to ensure the safety of all children and families.

Cell Phones & Cameras
